**NEW BUSINESS**

**A. Google Aerial Services Request for ArGIS**

Shawn Anderson mentioned that in past newsletters there was a strong possibility the State of TN and ECB would share the google aerial services link to our Board users and it has come true, with the exception of Utility Districts, at this time. The URL: <https://www.tn.gov/finance/sts-gis/gis/tn-google-imagery-access-request/> can be used to make a request and they will send a link that you can add within ArcCatalog and then use within ArcGIS Desktop. Shawn Anderson will be more than happy to help once the agency makes the request and receives the confirmation email and URL. You can view and print (properly sourced on map).

**B. 2018 911 Map Book Update**

Shawn Anderson stated the 911 Map Book will be updated this Fall with new information. The map book is hosted on the 911 department page for FREE download. The maps are in PDF format and show basic GIS data such as roads, addresses, boundaries, etc. for offline reference.

**C. TCECD Mapping Services from GeoJobe**

Shawn Anderson stated unfortunately, we had to cancel the TCECD mapping services from GeoJobe used for the dispatch mapping system from ADSi. ADSi has installed a new mapping program.
